

2014 GSLFIA Annual Meeting

Join us for the Greater St. Louis Flight Instructor Association Annual Meeting and take a complimentary test flight of the newest tools in general aviation flight training today!

Complimentary flights in the Redbird's top-of-the-line, full-motion, fully-enclosed dual-control cockpit, FAA approved AATD with wrap-around visuals.

Participate and be scored in the premiere of Redbird's Flying Cup Challenge competition software. Fly your best steep turn, lazy eight or spot landing and join the friendly competition with fellow members! Winning prize for the top scorer of night.

Come get a sneak peek at a how the latest technologies are being used to reach a new generation of young people with the fascination and pursuit of flight that has captured all of us. Preview the beta test that is coming to St. Louis in 2015.

Demo a new interactive *technology* that will change the way your private and instrument students conquer their ATC radio communication fears to sound like a pro!

Check out the newest European carbon fiber LSA that is aimed for the US training market. This capable and sporty trainer will give you a paradigm shift on what an LSA can do! This exact plane is the upcoming cover plane and feature story in AOPA Pilot magazine.

Join us for your association's annual meeting with all of this and FREE food, compliments of GSLFIA.

October 20th at 7:00pm

Hosted at Air Associates of Missouri
18600 Edison Avenue
Chesterfield, MO 63005 (KSUS)
